SOUTH GARDA KARTING - LONATO (BRESCIA, ITALY)

A GOLD SEASON ENDED AT SOUTH GARDA KARTING

Season 2015 has marked the absolute record of presence with 2.350 drivers on track in the 11 races held, scoring a good +12% compared to 2014. Credit for this goes to the renewed structure and organization. Further novelties will follow shortly.

Lonato del Garda (Brescia, Italy). Sporting season 2015 ended at South Garda Karting with another record presence and a organizational success that launches the kartodrome of Lonato amongst the most appreciated venues in the world.

The most significant exam for the circuit has come in the past few weeks with a very busy month started at the end of September with five races in a row, all top class, until the end of October. The circuit of Lonato housed in fact the double round of the **25th Autumn Trophy**, the **Bridgestone Supercup**, the **Rok Cup International Final** and the **44th Trofeo delle Industrie**. A series of prestigious events that brought on track nearly 1.100 drivers.

Considering also the races held in the initial part of the season, that comprised the classic **Winter Cup**, the **Andrea Margutti Trophy**, the **Spring Trophy**, the **Summer Trophy** and the **National Easykart Trophy**, such figures reached the enviable level of **2.350 drivers** partaking in the 11 races run in 2015. This is a remarkably positive result compared to 2014, with a 12% increase from last year when the South Garda Karting track celebrated its record of 2.100 drivers in 12 events.

Among the International events having the highest number of participants in 2015, the 20th edition of the **Winter Cup** held in February had a total of 240 drivers on track from 36 different countries representing the five continents. The **Summer Trophy** held early on July counted 301 drivers. The highest number of drivers was scored by **Rok Cup International Final** held at mid October, as the race saw 350 drivers from 35 countries representing the 5 continents challenging each other on track.

Such an exceptional result awarded once more the great activity done and the renewal of the venue, which places the South Garda Karting on top of the world ladder of this sector. This has been achieved also thanks to the activity of all the collaborators of the structure and Media staff, televisions, journals and web sites of the whole world that gave wide space to the most important events that have been organized at the South Garda Karting circuit.

The paddock enlargement and the numerous new services, the new timing system featuring Live Timing and a new programme to manage race classifications, a cutting edge CCTV system, the Live Streaming, a new website and the new Race Direction bridge are the main investments recently completed by the South Garda Karting, that will soon introduce some further important novelties.
